## Objective

---

To work in an environment which encourages me to succeed and grow professionally where I can utilize my skills and knowledge appropriately.

## Experience

---

- **Zidio Development** Jun 2024 - Sep 2024  
UI/ux  
Resume Builder UI/UX project aims to create an intuitive and visually appealing web app for easy resume creation. We start with user research to understand needs and pain points, followed by wireframing and prototyping to visualize the user flow. The design phase focuses on simplicity and aesthetics using tools like Figma or Adobe XD.
  - Worked closely with UI/UX designers to ensure integration of front-end and back-end functionalities.
- **Cisco virtual internship** Mar 2024 - May 2024  
Cybersecurity  
The hashed password cracker tool will be designed to crack hashed passwords often used for secure storage and authentication. It will utilize various techniques such as brute force, dictionary attacks, and rainbow table lookups to attempt to reverse-engineer the original password from its hash value.
  - Strengthened cybersecurity posture with the deployment of intrusion detection systems, vulnerability scans, and patch management processes.
- **Andhra Pradesh State Skill Development Corporation** Dec 2023 - Feb 2024  
AI ML  
The first beginner-friendly Sentiment Analysis project idea is about evaluating Amazon product reviews. Amazon is one of the biggest e-commerce stores, and it also has a wide product selection. When companies want to understand public opinion, performing sentiment analysis helps them recognize what customers like about their products. It also helps to figure out the primary issues with their products
  - Analyzed, manipulated and process large sets of data using statistical software.
- **Andhra Pradesh State Skill Development Corporation** Sep 2023 - Nov 2023  
AWS  
A customer service workflow is a process that a business follows to ensure that its customers are satisfied with the products or services they have purchased. This workflow typically involves a series of actions that are triggered by specific events
  - Worked closely with DevOps teams in deploying applications into cloud environments like AWS EC2 instances and GCP Compute Engine VMs securely and reliably.

## Education

---

- **Madanapalle institute of technology and science** 2025  
Computer science and technology B TECH  
8.29
- **sree vidyanikethan engineering college** 2022  
Diploma  
80
- **Vani talent high school** 2019  
SSC  
9.7

## Skills

---

- UI/UX design
- Python
- Java
- HTML
- C programming

## Achievements & Awards

---

- NPTEL certificate on "E-Business" "soft computing", "Privacy and Security in Online Social Media"
- Certification for successful completion and a passing grade in "Cloud Computing" at IBM
- Certificate of completion on Protection From the Browser Attacks in VIOS
- Certificate completion on R Programming in Great Learning
- Certificate completion on data science in simple learn
